About This Content

This stunning Train Simulator add-on features the unique and beautiful Isle of Wight railway. Travel round the picturesque holiday island in the Class 483; these ex-London Underground trains have been given a new lease of life on the Isle of Wight and are the oldest trains in mainline service anywhere in the UK. Or for a change of pace, power and era you can also drive the 1915 Kitchener Class 0-4-0ST "Invincible" on the Isle of Wight Steam Railway.

This add-on comes with two locomotives, three liveries, rolling stock, Isle of Wight line and landscapes and a set of 14 scenarios for you to enjoy.

Scenarios

- After the Flood
- And So to Bed
- Island Line Day Rover: Part 1
- Island Line Day Rover: Part 2
- Isle of "White"
- Last Train Standing

-
- Let the Music Play On
 - Lightning Strike
 - Lights! Camera! Action!
 - Looking After Number One
 - Much Merriment and Cake
 - Pier Pressure
 - Santa Special
 - Shanklin Sunrise

Key Features

The Isle of Wight add-on includes

- A Class 483 Electric Multiple Unit in a London Transport and Network Southeast Livery.
- A W37 0-4-0ST 'Invincible' Steam Locomotive along with 6369 Composite First Class Carriage, a 4112 Third Class & Guards Van Carriage and a SR 5 Plank Goods Wagon
- Other rolling stock includes: A DX 68809 Diesel Personnel Carrier and a 20t Support Trailer
- Island Line Length: 8.5 miles (Ryde Pier Head to Shanklin)
- Isle of Wight Railway: 5 miles (Smallbrook Junction to Wootton)

So you going in search of fortune, ain't ya?
Well let me know if ya find it. Ha, ha, ha!

train simulator isle of wight route add-on

A rather difficult game until you know where to go. Once I found the objective and headed for it (her) I could get there easily. Also very short, unless I'm wrong, it has only one level. Weird. Capo on 15th fret? Come on... I lost my premium content when Sony sold this the Magix while I'm happy with the software. However I'm not happy with the fact they removed my deluxe loop. anyhow I changed it to positive as I got this on sale so I should NOT complain. I like the game's focus and atmosphere around Metal mixed with magic. The comedy makes the game fun and interesting. MaP is Fun As Phu K.

. Amazing art style? Check.

Greek Mythology inspired? Check

Unique approach to platforming? Check.

So much promise, so fun at first, until you beat it a few times and realize none of the unlocks work; starting character is all you get. I'm not 100% hating the game, and will change my downvote if this improves, but, judging by the forums I should have checked before buying, it's the same for everyone, and has been for some time.

Not really a review if I just mention that one, huge, gaming, glaring flaw, so I will say what I liked. It's a semirandom dark rpg where the map remains the same ,as far as I can tell, but the NPCs and items are different run to run. Is that guy over there going to attack, join you, or sell you stuff? You won;t know until you approach/get spotted. This has the promise to eat several hours of your time, if it can be made to work the way it is supposed to.. Expecting fun mouse minigames like the ones in Mario Paint? Nope, just brutal, sadistic, unfun challenges here. They even show you getting whipped by a dominatrix after you lose to drive the point home.. Firstly! This game is intense on puzzles and requires a LOT of thinking. (Or to have a guide handy when you get stuck :p)

Okay, so what did I think? Well, I loved everything about it really. The puzzles were hard (some harder than others) but possible if you thought you way through it. But some of the hidden items and things you are meant to do are confusing. And some you need to think literally about. Such as, what makes up a fishing pole and what do you need to use an empty lantern (Oil and a Hook) But a lot of the time some things also don't make sense (Lets murder animals and put them in bottles! :D)

There were a couple little problems. Needing to use a guide to progress on occassion wasn't all that good. Like these puzzles Professor Layton would even scratch his head over! There was 1 line of text that wasn't translated. (When you click on the arm things in the torture room thing on your 2nd visit to the room (1st visit is in the tutorial part)) Russian maybe? Idk languages well enough to say for sure. And a the 'play for over 3 hours' achievement glitched out for me I think. (Since I've played twice that yet haven't gotten it. Also the clicking achievements I think you have to be clicking on actual clickable objects for the click to count.

All in all, I'd say it is worthy of a 7/10. However. For someone who is not a fan of puzzles, I do not reccomend this at all.. This is a great tool to test the performance of your PC. The benchmarking tools in this software really push your computer to its limits. The software is easy to use and doesn't take a brain surgeon to understand. Just pick what level of computer you think you have and the software will tell you if you have a decent rig. You can check your scores against other people from around Steam which is fun. I like it that you can compare your system overtime to see where it is lacking or what needs to be improved. This software has helped me to understand my system more each time I use it. This has helped me to understand my RAM frequencies and see that they were not running at the same frequency which helped me save alot of money. I really recommend this software to any PC guru that wants to get the most out of their system. I would first try the DEMO first since you can get a basic idea of what your computer can do from that but if you want to mess with settings then get the full version of this software. I wouldn't recommend this at full price, make sure to wait till this one goes on sale.. Too pricey for a simple match game. There's just not enough to keep my attention. It just makes me want to play Bejeweled some more.. No sound Mane =(
